LPs should be aware that the carrying value of NordTech AB (EUR 25,000,000) may be overstated.

3. Preferred Return Accrual

Accrued preferred return attributable to Maison Beaumont (5.3% share):

Preferred return rate: 8% per annum

Compounding: Annual (simple interest applied quarterly in this statement)

Note: LPA Article XVIII, Section 18.1 specifies that the preferred return compounds annually on a calendar-year basis. This statement applies simple interest on a quarterly basis, which understates the preferred return entitlement by approximately EUR 18,000 per quarter due to the difference between compound and simple interest treatment.
